12 Hurt in Quad-City Traffic Accidents

Total of 17 Crashes Reported; 4 Injured In Six-Auto Pile Up

Twelve persons were injured in the Quad-City area in 17 accidents reported to authorities since Monday.

Four Illinois Baptist ministers were injured in a six-auto accident at 3:30 p.m. Monday on Highway 66 at the Chain of Rocks canal bridge. It was reported they were returning to a conference in St. Louis.

Eastbound autos of Gerald Bertram, Wood River; Gene Kirk, Olmsted; Dennis Dorsey, Mankato; Alvin Loyd, Edwardsville; and Rev. Grady Sensen, Chenoa, were stopped in traffic when the sixth, driven by Ronnie George, Alton, Ill., struck the rear of one of the cars, causing the chain reaction. Traffic was blocked for about 45 minutes.

Taken to St. Elizabeth Hospital were Rev. Sensen, 37, Rev. Donald Conrad, 32, of Fairbury; Rev. Peter Borzeka, 44, of Pontiac; and Rev. Clark Luce, 38, of Nokomis.

Rev. Sensen was admitted with cuts to his forehead and abrasions to his knees. Rev. Borzeka was admitted for observation with possible rib injuries.

Rev. Conrad was treated for injuries to his ribs and right elbow and was released. Rev. Luce was treated for a left knee injury and was released.

Injured on Bridge

William Siewers, 66, of Berkeley, Mo., suffered head and chest injuries at 6 p.m. Monday when the car he was driving west on McKinley bridge struck the southeast corner of the abutment and tore out a section of bridge railing. Siewers was taken by ambulance to Missouri-Pacific Hospital in St. Louis. The entire front end of his car was damaged. Venice police said it had to be towed away.

Wesley Lehnkuhl, 2257 Buxton avenue, reported that his car struck an unidentified girl crossing the street at Madison avenue and 21st street at 7 a.m. Tuesday when he was attempting to avoid a halted auto in front of him. He said the girl, the last of three crossing the street, suffered skinned knees but refused medical treatment and left.

Walter Kafka, 46, of 1532 Rodgers avenue, was injured in a one-car accident during the heavy rain storm at 10:30 p.m. Tuesday at Interstate 70 and Route 111. The auto was badly damaged. He was admitted to St. Elizabeth Hospital with chest and back pains, abrasions to his right hand and left wrist, and cuts to his right knee which were sutured. He was alone and returning home.

County Health Plan Delayed

Full Investigation of Tax Power, Control to Be Made Before Action

A proposal by the Madison county board of supervisors that it support a plan for establishment of a county health department struck a snag in the board's regular meeting at Edwardsville yesterday morning and was laid over until the June session, pending a more thorough investigation.

The matter, which set out the board in a resolution drawn by a special committee that has been looking into the county health department plan.

The resolution, which set out the serious need of such a unit, provided that the county board would lend full support and encouragement to any movement to place the matter before the public in a special referendum to be held with the November general election.

Passage of the resolution, in view of former discussion of the issue, had been considered routine. But after the resolution was read, Namekio Township Supervisor Harry Briggs asked that some estimates on operation of such a department had been obtained and what taxes would be assessed to maintain it.

He was informed that no figures were available on operation, and that a tax rate up to 5 cents per \$100 valuation would be allowed under existing state law.

Support Withdrawn

William Hoelscher, manager of the Manufacturers Association of the Tri-Cities and chairman of the health committee of the Tri-Cities Chamber of Commerce, was in audience and asked to speak. Hoelscher warned the board that it should make a thorough investigation of state laws governing health department and at the same time sent a letter to the board of Commerce must, at this time, withdraw its recommendation for a county health department.

Hoelscher explained that earlier this year, the Chamber health committee, after considerable discussion of health problems, sent a letter to the county board committee recommending the plan for a county health department and pledging support of such a plan.

"Since that time, in view of a number of questions, the board of health has refused to state a definite time schedule for the study of health problems," Hoelscher said.

"From the data we have collected, it is our opinion that there is some operation in the state plan which on some unpredictable time schedule might require large quantities of hydrogen sulphide, the report said, adding that hydrogen sulphide has been determined as the cause for discoloration of certain lead base paints.

The summary of the year-long study was presented to the board by Alderman Whitmer, chairman of the Air Pollution committee. He said the study had been assigned to steel mill officials and that a report from them was pending. He called for the study firm's summary to be filed.

It was noted the testing firm was pending the city call for its experts to testify in the event any householders file damage suits.

Mill Seeks More Data

A spokesman for Granite City Steel, Lyle F. Guiley, vice-president and general manager of operations said yesterday, "We have asked for more information concerning data obtained by the air study program and we will provide it as it is provided in relation to our operations. The answer on our company has invested millions of dollars in pollution control facilities."

Guiley added that details of the air study program and the data have been reviewed for the past several days and that there was no pending. He called for the testing firm's summary to be filed.

It was noted the testing firm was pending the city call for its experts to testify in the event any householders file damage suits.

24 DAYS WITHOUT QUAD-CITY TRAFFIC DEATH

Just when Granite City's traffic accident rate was beginning to show a downward spiral and show steady signs of dropping, two council members initiated action Monday night to block the rehiring of a traffic engineer for the new fiscal year.

A budget item of \$6000 for traffic engineering was included in a list of recommendations presented Monday night by the citizens' Traffic Study Commission, and a referendum to block the rehiring of a traffic engineer for the new fiscal year.

Boyd questioned the increase of the amount over the \$4000 allocated for Traffic Engineer George Crawford in the 1965-66 fiscal year that ended April 30.

Injunction Blocks Revision

Boyd, who with Alderman Polio earlier this year instituted an injunction suit that has blocked a revision of the one-way street system, asked if Crawford would not go along with any such proposal.

The one-way revision would reverse Barton street along which both Boyd and Polio reside. Crawford's recommendations for traffic control changes, many of which the council approved last year before going back to the system of wantonly putting up signs and signs, were the subject of a referendum to block the rehiring of a traffic engineer for the new fiscal year.

The continuous upward trend in crashes had halted and was beginning to drop—even with the one-way street system in place by the city. Then, last month, the increased rate resumed.

The drop in traffic crashes started last September, when there were 124 accidents, compared with 149 in September 1965. The comparison figures for other months, with the 1965 figure

GC Council Votes 11-5 To Block Construction Of Great River Road

Agreement with State Is Tabled; Funds May Go to Other Areas

Construction of the \$2,500,000 Great River Road into Granite City was blocked Monday night by an 11-to-5 fractional vote of the city council to table an agreement with the state highway department (Federal Aid Route 151) would be made by the city for the first three decades to relieve traffic congestion along the road, routing over Missouri avenue and 20th street, and the need is present now with the added traffic, development of harbors along the Chain of Rocks Canal and industrial expansions, proponents stress.

The Monday night was in approving an agreement with the state highway department for the road to provide certain privileges to the state while the roadway is under construction through West Granite and along the Army Depot fence in Lincoln Place.

Routing of Highway

The \$2,500,000 stretch of highway would extend from a point north of West Ponton road south to Nidringhaus avenue. The dual, limited access highway (Federal Aid Route 151) would skirt the A. O. Smith Corp. plant to the west and enter Granite City with access roads at North Street, Rock road, West street and Nidringhaus avenue.

By 1968, it would extend into Venice and later on to the south and connect with major highways leading to New Orleans.

Robert Kronst, district highway engineer, told the council last week that the state needed the agreement as quickly as possible in order to proceed with construction of the highway. He said that the roadway is an integral part of a long-term system of new federal and state highways.

Funds Needed Elsewhere

If Granite City fails to accept the plan, the funds earmarked for this year's work of building an overpass at the ITR tracks and acquisition of the final mile of the highway, would be diverted to other needed projects in the district or may even be allocated to other sections of the state. "The state is mighty short of highway construction funds, and it won't be allowed to be around here," Kronst told the aldermen.

The move to table the agreement was made by Ward Alderman Nomm, who is demanding the erection of fences along the roadway through the city and the frontage road, between West 20th street and Canyon street on the east side of the road.

Supporting the tabling move was the council's anti-administration faction—Bartosh, Bartosh, Johnson, Boyd, Dallas, Moerkens, Parnley, Robertson, Poulos and Green. Opposing the stall were Rutledge, Whitmer, Sternberg, Fry and Thompson.

In presenting the agreement for council approval, Alderman Sternberg, chairman of the Street committee, pointed out the provision for detours during construction was merely for regular vehicle traffic in the area and not for use of city streets by heavy construction equipment.

"I don't trust that special permits would be sought if the road building equipment had to be driven over city streets," Sternberg added.

After the tabling vote, Mayor Vera Halbe, 2147 Lee avenue, Almetta Hayes, 2306 State street.

Later Curfew Hour, Controls on CATV Ok'd by GC Council

The 10 o'clock whistle has had its effect. Granite City's teenagers under 18 now can be on the streets until 11 p.m. week days and until midnight Friday and Saturday nights.

The council voted the curfew change Monday night, along with approving an ordinance requiring a franchise for any firm planning a Community Antenna Television installation in the city.

The curfew law specifies a child less than 18 must be accompanied by a parent, guardian or responsible person of at least 21 if at any public assembly or on the street or in an alley, unless engaged in a business or occupation which the state law permits.

Curfew time is between 11 p.m. week days and midnight on Friday and Saturday and the hour of 6 a.m. the following day.

Parents who knowingly permit a child to violate the curfew also will be in violation. Penalties will range from \$10 to \$100.

The CATV control ordinance forbids such installation until a franchise is negotiated between the firm and the city.

Clean Up Drive Adds 'Burn Down'

Venice leaders in the Quad-City Clean up, Paint up, Fix up drive added "Burn Down" to the slogan Tuesday evening, when Venice firemen disposed of the old McKinley car barn at Broadway and Madison street, Venice. A large crowd gathered to watch the blaze which was carefully controlled by 14 volunteer firemen, running the community's fire-fighting equipment.

Milton Morris, Venice clean up chairman, said the remains of numerous old sheds in North Venice are being pulled down as part of the civic improvement program. Many residents are anxious to have the remains of the city to remove all debris if homeowners demolish unwanted structures.

Venice's street commissioner Jay Meyers said yesterday city trucks haul away the remains of two unsightly sheds which had been torn down by their owners.

Enthusiasm High

"Enthusiasm for the clean up drive is very high right now in all areas of the city," Morris said today. He added, although the campaign officially ends Monday, we are not going to stop. We plan to complete the improvement program even if it takes us all summer.

Activities leading up to a maximum effort this weekend, cleanup of the city's streets, community betterment program, clinics at a record-setting pace.

Quadrant Boy Scouts are continuing the "Red Tag" campaign of areas homes and yards, while city crews flush down major thoroughfares and collect accumulated junk and other debris from individual households.

Police Aiding Free Safety Inspection with 'Tickets'

Local motorists are being aided this week when issued warning tickets by Granite City police officers.

The citations direct the drivers to appear at one of 23 free safety inspection stations where experts are checking various unsafe conditions detected by the officers.

In cooperation with the local police department, the project is part of the two week auto safety campaign.

Through the program, Quad-City auto owners are being offered an advance warning of safety inspections of their vehicles at 23 GDA-member stations located in Madison and Granite City.

Brake Defects Found

Lt. William Condis of the Granite City police department, and a member of the Safety Council, said today that warning tickets issued by local officers will be collected from the auto inspection stations to determine if the motorist has complied. Several serious brake defects already have been discovered, Condis said.

Warning tickets are being given to auto drivers whose vehicles have improper front and rear lights, turn signals, poor tires and brakes, broken windows obscuring vision or improper mufflers, among other defects, Lt. Condis explained.

Testing Firm Says H-Sulfide Comes From Coke Plant

The source of hydrogen sulphide which has been blamed for the discoloration of lead base paints in Granite City on numerous occasions was placed as the coke plant (blast furnace division of Granite City Steel Co.) in a report to the council Monday night.

The report by St. Louis Testing Laboratories pointed out "four dates in November and December 1965 and February 1966 its instruments in four locations registering sulphide, humidity and wind direction, showed large amounts of sulphide in the wind."

"From the data we have collected, it is our opinion that there is some operation in the state plan which on some unpredictable time schedule might require large quantities of hydrogen sulphide, the report said, adding that hydrogen sulphide has been determined as the cause for discoloration of certain lead base paints.

"From the data we have collected, it is our opinion that there is some operation in the state plan which on some unpredictable time schedule might require large quantities of hydrogen sulphide, the report said, adding that hydrogen sulphide has been determined as the cause for discoloration of certain lead base paints.

The summary of the year-long study was presented to the board by Alderman Whitmer, chairman of the Air Pollution committee. He said the study had been assigned to steel mill officials and that a report from them was pending. He called for the study firm's summary to be filed.

It was noted the testing firm was pending the city call for its experts to testify in the event any householders file damage suits.

The increase will begin this week at most stations and is expected to be either a half-cent or one cent. City Services May Be Halved by Loss Of Madison Income

Municipal services in the city of Madison may be cut in half if the city loses its income from the Chain of Rocks toll bridge.

Mayor Stephen Maeras warned at a meeting of the city council Tuesday night.

In revealing the city's financial report for the fiscal year ending April 30, the mayor said that 34% of the general fund income of \$40,167 came from bridge sources. The city has built a reserve fund of several million dollars in its bridge fund and has tax income for special purposes.

The city is liable to lose all income from the toll bridge when the new Interstate 270 highway bridge opens, scheduled for 1971, just to the north, it was noted.

Mayor Maeras said tolls may be eliminated automatically when the toll free bridge opens, referring to demands by the Missouri state highway department to remove the tolls immediately.

A suit is to be filed in federal court, and the mayor agreed that this would be the proper action if Missouri is to make a move. But he indicated he felt such a move is unnecessary.

The mayor answered that corporate tax receipts of \$13,218 received last year were 36% of the total receipts, and that line items are placed on the amount of taxes which can be levied. He added that he hopes another source can be found.

Boy, 16, Admits Theft Of \$76 From Grocery

A Venice boy, 16, who admitted burglarizing a Venice grocery store Tuesday night and a Venice cafe on April 18 will be turned over to Madison county juvenile authorities, Police Chief Frank DeWitt said today.

The youth was arrested Wednesday in a downtown Granite City business establishment and turned over to Venice authorities. In a signed statement the boy said he was in the Baucum Grocery store, 1000 Logan street, Venice, waiting to buy candy when the proprietor, Henry Baucum, locked up the store.

He went to the police where he opened an unlocked safe and took out one of several boxes which contained a bundle of currency.

The boy said he took the money, left the store through a rear door, and later counted the money. He said he had \$76, 17 of which he spent for candy, clothing and a trip to St. Louis.

Baucum reported the theft to police Wednesday and said approximately \$200 in bills and change was taken. Venice police said the boy still had \$38 when he was apprehended.

Police reported the youngster also admitted entering the Christmas Cafe, 1100 Calhoun street, on April 18. Three other boys were involved in that burglary in which about \$16 in coins was taken from a pinball machine.

County Health

any commitment until those questions are answered," Hoelscher told the county board, adding that he has checked into the law and come up with several conflicting factors.

"I really can't tell from the law whether the money to support such a department would have to come out of the general revenue fund of the county, or if there is an additional 5-cent tax," Hoelscher told the board.

"It is not clear whether an additional five-cent tax is allowed, and there is one section that might provide still another five-cent tax which would make a total ten-cent tax a possibility," he said. Hoelscher added a full interpretation of the law governing such a department should be considered by the board before it took action on the resolution.

He pointed out that a 5-cent tax applied against the present valuation would mean a fund of \$400,000. "That," he said, "is a lot of money to put out for a new department of any kind, particularly one we know so little about."

GC Council

Kronst was explicit in stating the state would not exert forces along the roadway through the city, but he said he would compromise on the frontage road the city would provide the right-of-way.

No Federal Funds for Fence

He explained, after aldermen commented they had used fences for miles along major highway, that under the state construction program, no federal funds are available for fences. Along interstate roadways, the federal government foots 90% of the cost, he said.

"To stop this project," Sternberg remarked, "is like burning the house down to kill the mouse. The future of the community is dependent on its construction."

None of the other aldermen spoke on the issue, although several had expressed unfavorable views at the special session last week when Kronst outlined the state's program. They had issued the edict: "No fence, no road."

Kronst pointed out an agreement with Illinois Terminal Railroad for an overpass at its line serving the canal harbor was assured this year and construction of the structure would be started.

The actual start of roadway construction for next year. Only 21 panels of right-of-way, parcels of right-of-way are needed.

Senior Khoury League Coolidge Has Swinging Into Action Chance for Championship

The metropolitan area Senior Khoury League has strengthened its 1966 baseball program. The league now boasts an eight-team membership, divided into a North and South division. Neil Steger of Belleville is league director.

All games are played on Sunday, with teams limited to 15 players of high school junior-year age and above. Game time is 2 p.m. at the six parks where the league has scheduled its contests.

The South Division, its teams:

Park District Short a Girls' Softball Team

Despite the need for still another team to round out the Granite City park district's girls softball program, action will get underway at diamond No. 8 Saturday at 7:30 p.m. with Melba Greer's team meeting Marsha Gallows' club.

Russ Chappell, park athletic director, expressed the belief that there is definite interest in the girls' program this year. He announced that girls wishing to participate can contact the park office, TR 7-3069, for additional details.

"We're sure there are plenty of girls who want to play softball," said Chappell, "but some are just timid about coming out to talk with us. We're interested in girls of high school junior year age and up," he said. "This includes housewives; this is an excellent chance to get away one evening a week, and provides very good exercise."

The regular girls' softball schedule at Wilson Park will find four teams playing on diamond No. 8 at 6:30 p.m. on Thursday and Friday each week, following the opener this Saturday evening.

Chappell said there are no strict rules on what the girls can wear, but added that customarily the players dress in blouses and Bermuda shorts and wear tennis sneakers, with knee-length stockings also a good idea.

Mitchell Boys' Baseball Opening Postponed Week

The planned opening of the Mitchell boys' baseball program, originally set for Monday of this week, has been set back to next Wednesday.

Reason is the conditions of the grounds in Mitchell it was announced.

managers and playing sites, are Granite City Steel Credit Union, George Sykes, Granite City high school; East St. Louis Lanesdowne, Royce Sheppard, Jones Park; East St. Louis Hawks, William Houston, Jones Park; East St. Louis VFW Post 8475, Don Wilson and Art Bernard, O'Fallon Park.

Teams, managers and playing sites in the North Division are: Venice Mets, Ron Thurman, Lee Park diamond No. 1; Madison Blues Jays, Arthur Winters, Lincoln Park; and Belleville Moose, Neil Steger, Civil War Veterans Field, five miles south of Belleville on Route 159.

Any Quad-City area men interested in playing or serving as umpires should contact Steger at 419 North First street, Belleville, or AD 3-0073.

At least one team and possibly others are still filling out their rosters. Ron Thurman of the Venice Mets is looking for three more players who can try out at the Lee Park diamond during the team's 4 p.m. Saturday practice sessions.

The league has not to get in a full Sunday's slate. Four games have been played so far: the Venice Mets lost to the Madison Blues 9-6 and were defeated 20-9 by the Bluejays, the Bluejays played Belleville to a 9-9 rain-shortened tie and Belleville took a 19-6 game from the Madison team.

'Little 500' Entrant in Speedway Bill Saturday

Super modified competition at the Tri-City Speedway Saturday night will be highlighted by two top-rated competitors, Gordon Woolley of Waco, Tex., and Tom Siglow of White Waters Falls, Wis.

Woolley, who will be going for top prize money in the "Little 500" at Anderson, Ind., May 28, will be driving a machine owned by John Commer of Taylorville in this weekend's 11-event program on the Tri-City oval.

Powered by a 403-cubic-inch fuel injection Buick engine, Woolley's racer features a C.A.E. sprint car chassis with a modified roll cage.

Siglow will be going after the super modified checker flag in a Merle Heth modified car powered by a 454 fuel injection Chevrolet engine.

Should Coach John Toncoff's Coolidge baseball team beat Madison county junior high conference leader Edwardsville to day on the host's diamond, the Braves could end up in a first place tie.

Edwardsville is 5-0, with a pair of victories each at the expense of Prather and Roxana. They have beaten Coolidge once, Webster and North of Collinsville, the other two teams in the conference, do not field baseball teams.

A victory at Edwardsville to day would make Coolidge 3-1 with a chance to get two more victories in games with Prather and Roxana.

In a non-conference game at East of Alton Monday, the Braves, behind the solid hitting of Dennis Huebner and a tremendous double-barrel performance from Gary Simpson, scored a 6-2 victory.

Simpson, who allowed only three hits while walking one and striking out eight, aided his own cause with two hits, one a bases-loaded double.

Safety Patrol Has Jinx On Cardinal Opponents

A delegation of school safety patrol members from Granite City will join with approximately 4000 patrols to attend the seventh annual Safety Patrol Day at Busch Memorial Stadium May 25.

The baseball Cardinals have a winning streak of six Patrol Day games and will be hoping that the students continue their jinx on Red Bird opponents when the Cardinals entertain the Chicago Cubs.

Mercer, Mitchell Will Renew Rivalry Sunday

Just when the Inter-City Leaguers thought they had the tickle weatherman figured out, the skies fell in on all but two of the week's contests, shortening one to six innings and wiping the other pair right down the drain.

The abbreviated action found the standings shuffled only slightly. East St. Louis Harpers' win strengthened their Blue Division record to 3-0 while Red Division bottom-runners Maryville and Collinsville Mollers closed that division to a one-game spread between first and last with four victories. Neither team had won a game until Sunday.

Harper, invading Wilson Park Sunday for a 2:30 p.m. tilt with Hearts-Library Home, who were rain-aided last weekend, received possible added strength this week.

In an inter-league transaction, the Harpers team obtained left-hander Bob Vetter, who was leased by Collinsville Mollers. Vetter won an Inter-City League trophy in 1964 after chalking up the circuit's lowest earned run average.

Mercer Funeral Home of Granite City, still undefeated and rained out last Sunday, will invade the Mitchell A.C. home grounds behind Mitchell, who was scheduled for another 2:30 p.m. Inter-City game Sunday.

If past performances are any criterion in the rivalry between the two teams, Sunday's game should be exciting.

The two clubs met three times last year. Mercer notched a squeaky ninth-inning 4-3 win on game and outgitted Mitchell in another contest that went 10-9 innings. But Mitchell, behind now Army-bound Terry Brown's one-hitter, got revenge in the other '65 game.

In other Inter-City action this Sunday, East Alton, the only team still looking for its initial victory, travels to Troy, Maryville, fresh from its first win of the season, goes against Peachbottom on the Braves' diamond. The other game has co-sponsoring Mollers, also making its first win at week, hoping to topple the Polish-American War Veterans at Jones Park.

Madison Lets Curb, Animal Shelter Still Under Gutter Contract, Study by Napeeki Township

A contract was let by the Madison city council Tuesday night to the A. H. Seebold Co. to construct curbs and gutters on Kennedy drive and Greenwood street on its low bid of \$16,810.

Other bids were from G. H. Sternberg, \$17,157, and Bituminous Fuel & Oil, \$18,545. The council deferred action on a contract for catch basins along Washington avenue from Market to Eighth streets because the low bid of \$15,522, submitted by Bituminous Fuel & Oil Co., was more than \$2000 over the engineering estimate made a year ago.

Before a contract is awarded, a new estimate is to be made by the city engineer and presented to the state highway division. It will be based on increased wages and costs in the past year. Other bids submitted were \$16,546 by Sternberg and \$16,731 by Seebold.

Engineer Agreement
An annual motor fuel tax engineering agreement with the firm of Sheppard, Morgan & Schwaab was renewed, with fees on projects based on the same rates as in previous years.

The council received communications from the state highway division showing approval of a \$300,000 MFT appropriation for maintenance of arterial streets for the fiscal year, and a \$17,000 MFT appropriation to repave and improve 12th street from Grand to Madison avenues.

Mayor Stephen Maeras reported that the State Air Pollution Board has been asked for assistance in studying air pollutants, said to be damaging roofs and paint on homes and auto finishes. He said complaints from residents continue to be received.

Police Training School
The council authorized the police department to send two officers to a police training school at the University of Illinois for a month beginning June 13. An allowance of \$180 each was granted. The selections are yet to be made.

The police department also was authorized to employ personnel as summer replacements. Surety bonds for 13 police officers, police commissioners and city officials were approved.

Formal permission was given

to Venice-Madison American Legion Post 307 to hold its Memorial Day parade and service, today afternoon. The ceremony will be held at the Madison Memorial center. Seventh Street and Lee avenue.

Zoning, Land Use
A letter was read from the State Board of Economic Development on a request for aid for a joint Madison-Venice zoning and land use study to be made by the Southwestern Illinois Metropolitan Area Planning Commission.

The council was informed that the fund now is depleted but will be replenished on July 1 and the application will be reinstated.

The council approved elements requested by the Illinois Power Co. for a power line over the city's industrial park, and for an access farm road to its sub-station. The utility recently purchased several acres of the 66-acre tract for the power substation to serve nearby industries.

Supervisor Harry Briggs asked the two auditors to continue investigating the shelter project and report on total costs and operating expenses at the next meeting.

Briggs said he had arranged a meeting with Madison county rabies control authorities to discuss possible financial aid.

When Briggs agreed the town board should possibly seek such an opinion, Michael Ropac, president of the Committee for Economic Improvement of Napeeki township, commented, "The people at the annual town meeting voted for that resolution limiting the audit study to three specific firms. Do you intend to go by what the people want or not? Why cause another foolish delay in getting the audit under way?"

Polley countered, "Would you buy a \$2000 automobile for \$3000? Wouldn't you go for the lesser price?" Mrs. Ropac asked if all township purchases are made on bids. When Briggs answered "No," Mrs. Ropac said, "Well, why are you arguing about this particular item?"

Shewen Martin 2173 Harrison avenue, Napeeki Township Precinct Three, committee member, entered the verbal exchange at this point, saying to Ropac, "You have had the people hounded too long. You got one thing passed at the annual town meeting and you are riding it to death."

Following the meeting, Briggs told the Press-Record reporter that in all probability the audit study contract with Peat, Marwick, Mitchell & Co. will be signed. He explained the board first wants to see the proposal in black and white.

In other action, the town audi-

tor budget does not include any provisions for constructing a shelter or its operating expenses.

Tempers flared briefly as the controversial financial audit and managerial study for the township were discussed. Briggs said that at a recent special session, the \$1150 proposal by the firm of Peat, Marwick Mitchell & Co. was confirmed by a representative William Major, who said he wrote contract outlining each phase of the proposed study would be presented to township officials. Major was not present at Monday's meeting, and Briggs said the contract had not yet been received.

Polley objected to the proposal, saying he was in favor of obtaining an opinion from the Illinois attorney general on the propriety of the audit and in accepting the higher bid of the Peat-Marwick firm when a low bid had been submitted. "I think we would be delinquent in accepting the higher bid rather than the \$750 proposal made by the C. J. Schlosser Co. of Alton."

Driver Backs into Auto

An auto being backed out of its driveway by John W. Grobelski, 2943 Washington avenue, struck the left front door of an auto parked across the street at 10:15 p.m. Tuesday. He was not aware of the mishap immediately.

GC Man Fined \$30

James Winston Earls, 2202 Illinois avenue, was fined \$25 plus \$5 costs Tuesday in magistrate's court on a disorderly conduct charge filed the same day.

Hit-and-Run Accident

The left front of an auto owned by Clarence Hartline, 2944 Iowa street, was struck by a hit-and-run driver while it was parked at his home at 11:45 p.m. Tuesday.

tors agreed to call for bids for installation of a central air conditioning unit for the township offices.

When asked about the current status of the township's inquiry for a grant of federal tax funds for sewers, Briggs said he had been in contact with Housing and Urban Development authorities in Chicago, who advised him that the federal allotment in Illinois was about \$14,000,000, already was committed. He added that before the township's sewer proposal would be re-submitted to voters, they first must be informed of the project's cost without federal assistance.

Roger Deltour, a resident of the 2100 block of Dawn avenue, presented a petition with 28 signatures seeking installation of street lights in the area. He said the residents had been paying a street light tax for several years without benefit. Briggs agreed to refer the request to the district lighting authorities.

Bills approved for payment included \$67 from the town fund; \$82, special hard road fund, and \$165, road and bridge fund.

Partney Says Aldermen Want Political Plum in Hirings

Mayor Partney charged the council was "playing politics" in hiring a recommendation by the Personnel committee to hire Claude Woodward as an operator at the sewage treatment plant with a salary of \$320-a-month.

The action of Monday night could delay the start of the plant if operators are not hired and the new training he pointed out. The move to turn down the Personnel committee's choice was started by Alderman Morisien, chairman of the Pollution Plant committee, who said his committee was not consulted.

Mayor Partney invited the committee to study applications received for the position. "We selected the most qualified man and one who could start immediately,"

Alderman Thompson, chairman of the Personnel committee, said all applications were reviewed. "We didn't make the recommendation based on a name and address, but rather on background and education."

To Start in June

The treatment plant is scheduled to begin operation next month, and the council went on to approve the Personnel committee's selection of Robert Jackson Jr. as maintenance mechanic at \$600-a-month, to start June 1.

Morisien criticized Mayor Partney for taking a typist from the sewage treatment billing office and placing her in the comptroller's office, saying it would delay the mailing of bills scheduled for June 1. He called for a conference of the committee and mayor to get the billing back on schedule.

Mayor Partney agreed to the meeting and explained he felt it was necessary to provide extra help in the comptroller office after the death of John Doobier.

The mayor was authorized to make a trip to Chicago if it is necessary to eliminate reimbursement of a 1961 \$12,400 grant of federal tax funds by the former Federal Housing & Home Finance Agency to provide engineering studies for the sewage treatment plant.

Five years ago the city received an allocation of \$101,000 for its master sewer program, and the \$12,400 was added for sewage treatment plant design. The city contends that only \$700 reimbursement is due the federal government.

Purchase of a station wagon

for the treatment plant superintendent and two water-tight dump trucks for hauling sludge was approved. It is hoped federal funds will be available for a share of the cost of the trucks. The station wagon, a Chevrolet, is being bought from Mathews Chevrolet Co. for \$1977, after it was learned that at the Brewer Motor Co. bid lower by \$73, was for a 112-inch wheelbase rather than the specified 115-inch. The trucks are to be furnished by B. E. Holit, Inc., at a cost of \$4294 each.

Also to be purchased for the treatment plant is furniture for the office there.

Driver's License Station To be Open on Saturdays

Secretary of State Paul Powell announced today the Granite City driver license examining station, 2323 Washington avenue, will be open each Saturday from 8 a.m. to noon. The extra half-day service goes into effect this Saturday at the local station and 57 other examining offices.

The new schedule is to accommodate persons who would experience extreme inconvenience by having to take their driver license examinations during normal working hours on weekdays.

"It is definitely not an invitation to everyone to wait until Saturday to take the driver test," Powell said, adding "if the public abuses the new schedule to the point where pool service becomes impossible, it may be necessary to revert to the weekdays-only schedule."

He advised all applicants who can possibly take the examination on weekdays to do so, pointing out that past experience with Saturday hours has been that the volume of applicants is so great that lengthy delays in completing the examination have been unavoidable.

Council Committee And City Officer Appointments Ok'd

Five city office and council committee appointments submitted Monday night by Mayor Parthey were accepted by Granite City council members.

Harold Hillmer was renominated deputy liquor commissioner; and Theodore Macdon, an engineer, was appointed to the Air Pollution Control Board, replacing Eugene Burnett, who had earlier been named a police and fire commissioner.

Reappointed to the Animal Shelter board for five-year terms were Miss Nellie Stevens and Mrs. Marilyn Brandes. Robert Lee Watts Jr. was appointed to serve as assistant humane officer to aid Humane Officer Albert Young during the summer months.

The mayor made no changes in council committee chairmanships.

Two new committees were added—Special Sewer with Sternberg as chairman and Bartosiak as members, and Special Quiet Park, headed by Parmley with Nann and Johnson as members.

The City Hall committee, headed by Bartosiak, was changed to the City Buildings committee, with Dallas and Thompson as members.

Continuing as chairmen are Rutledge, finance and planning and zoning; Nann, ordinance; Sternberg, street and alley; Whitmer, police, traffic and air pollution; Johnson, fire and water; Boyd, sanitary; Basarich, light; Thompson, personnel; Moerlein, pollution plant.

The mayor did make changes in aldermanic membership on the committees.

Gas Pedal Sticks, Auto Damaged at Toll Station

A car driven by George D. Hurst, 2820 Pershing avenue, received a damaged right front wheel on McKinley bridge at the toll station in Venice, at 8 a.m. Tuesday.

Police said Hurst was headed east on the bridge when his accelerator stuck. While attempting to release it, the car struck the curbing at the toll station.

Former Resident, Carl Wyant Succumbs at 73

Cary Wyant, 73, of 7832 Belclare road, Dundalk, Md., a former local resident, passed away Wednesday morning in Baltimore. He had been ill for a year and in the hospital four months.

While living here, he was employed at Granite City Steel Co. He retired from Bethlehem Steel Co. in Baltimore several years ago.

He is survived by his wife, Mrs. Lora Cotter Wyant; two sons, Emerson Wyant, Dundalk and Gene Wyant, Baltimore; and daughter, Mrs. Madeline Kinsley, Pikesville, Md. Another son, Randall Wyant, preceded him in death three years ago. There are ten grandchildren and one great-grandchild.

Zoning Changes, Annexations, Beauty Schools Keep GC Council Busy

Zoning change requests, annexations, approval of a tract along Pontoon road at Wabash avenue for apartments and service shopping area along with a request for limitation to give a monopoly for a beauty school were among a wide variety of business presented to Granite City council members Monday night.

Referred to the City Plan Commission were requests for zoning changes for the former Parkview confectionery, 1027 Twenty-seventh street, from R-2 to C-1, submitted by Howard Cline, and for a change from R-1 to C-1 for 2000 Pontoon road where Dr. Michael Baggot plans a physical office.

A petition by Lulu Rapp and Arthur McFarland for an R-5 designation for a tract adjacent to Cloverleaf 8th Addition from the present R-3 also was referred to the Plan Commission.

Annexed to the city were seven lots along Edgewood drive not now in the city. The owner had requested the annexation for nearly a year.

New Apartments OK'd
Despite protests by Eighth Ward Aldermen Thompson and Johnson and a delegation of about 12 adjacent property owners, the council approved an ordinance permitting development of a tract lying between Pontoon road and Amos avenue, east of Wabash avenue.

Several apartment buildings and a service-type shopping center are planned by the developer, Robert Swiatk.

His attorney, Randall Robertson, explained that objections raised several months ago when the development was rejected by the council, had been corrected to provide inside parking rather than perimeter parking and that two of the Williamsburg Colonial design apartments will face Amos avenue.

Alderman Thompson said he had conferred with surrounding property owners over the weekend, and they still opposed the development. He said that the tract could be parceled as lots for individual homes to conform with the neighborhood. Robertson replied that increased property values put the lot figures too high for individual homes.

The vote approving the R-5 and C-1 zoning for the development was 12-0-4, with Whitmer, Johnson and Fry dissenting.

3 Inside Areas Are Out
Referred to the city attorney to prepare annexation ordinances was a recommendation from the Plan Commission which noted three areas in the city were completely surrounded — that have never been annexed.

The discovery was made by the Southwestern Illinois Metropolitan Area Plan Commission which is in the process of updating the city's map and master growth plan.

The areas within the city but not actually a part of the city are — a lot off Wabash avenue belonging to Concordia Evangelical Lutheran Church, a small tract off St. Clair avenue between Willow avenue and Edgewood drive and the Reutzel tract off Pontoon road at Maryville road.

In another letter, the City Plan Commission members urged the council to comply with a request by SWIMAPC for funds to continue its operation.

Legal Opinion Sought
A legal opinion is sought from City Atty. Allen concerning a petition signed by 46 beauty shop operators requesting the city to set a limit of one beauty school in Granite City.

The beauticians pointed out their customers would flock to the schools for half-price work by students. They noted that one such school already is in operation and two others are planned.

Several aldermen questioned the city's position in establishing a monopoly for a beauty school, but a majority called for preparation of the licensing and restrictive ordinance in compliance with the petition. A license fee of \$50 a year for the single beauty school was proposed. A delegation of beauty shop operators was in the audience.

In other action, the council— Approved an ordinance granting Air Products Co. easements for an underground oxygen line to serve Granite City Steel Co. Alleys Vacated, Created
Authorized by ordinance the vacating of sections of several Pontoon road.

Placed on file was a letter from the Hungarian Organization in New York City requesting the city to name a street or park "Hungarian Freedom Fighters" in honor of the 10th anniversary of the Hungarian revolution.

Referred to the Sanitary Committee was a letter from Mrs. Alice Dayton, 2027 East 30th street, complaining that insect spray from equipment used by a firm along the Lipsett Street Products Co. had blown into her yard and withered rose hedges, leaves, grape vines and lilac and apple trees. She added that the smoke from Steel firm also was a nuisance.

Granted permission to the Granite City Jaycees to conduct a homecoming parade on June 18 in connection with its June 17-19 homecoming fete.

Three Passing Charges
Marion H. Lee, Collinsville, George J. Petrunich, 2349 Clark avenue, and William M. Mendenhall, 4045 Breckenridge lane, 21st and Adams street, where a passing and lane usage Monday morning were charged with improper driving and were summoned for hearings by May 27.

A buzzing sound caused by a short in a television set sent three fire alarms Tuesday morning. At 3:20 a.m., firemen were called to the Nestle Co. plant, 21st and Adams street, where flooring in an old filter bin was burning.

A fire in an ash pit at the rear of Modern Upholstery, 1423 Twenty-third street, caused the third alarm at 8:30 a.m.

Framework Takes Shape for New GC Steel Co. BOF Plant

PATTERN IN THE SKY is formed by this structural steel framework for a basic oxygen furnace plant at Granite City Steel Co. Section in center of photo is furnace aisle, rises to a height of 160 feet. New plant will produce 2,200,000 tons of ingot steel a year.

will replace open hearth furnace, seen in photo at far right. The structural framework at right will house three double-chamber electrostatic precipitators. They are key units in a high efficiency system for cooling and cleaning waste gases from the steelmaking operation.

THREE ELECTROSTATIC precipitators are installed in this framework to clean and cool waste gases from the basic oxygen steelmaking process that will go into use with completion of the new Granite City Steel Co. plant early next year. The precipitators will remove dust after the gas has been spray-cooled in hoods mounted over each BOF vessel.

Scheduled to Start Production next Year

Structural steel is taking shape for the new basic oxygen furnace plant at Granite City Steel Co., an installation that will go into use in the late spring of 1967 with a rated annual capacity of 2,200,000 tons of ingot steel. It will be the largest steelmaking plant in the St. Louis area.

One of the two large basic oxygen furnaces, each of which will be able to produce 220 tons of steel in each heat, already is mounted on its trunnions. The heavy steel columns and girders for a section of the furnace aisle are assembled to a height of 160 feet.

Assembly of three double-chamber electrostatic precipitators is progressing daily as part of the contract with Koppers Company, Inc., of Pittsburgh to design, engineer and build the facility.

Lyle F. Gulley, executive vice president and general manager of operations, said the completion of this facility not only will be a milestone in the rapid development of the basic oxygen furnace process in the United States, but also will make Granite City Steel Co. the first American steel producer to make all of its steel in basic oxygen furnaces.

The basic oxygen furnace plant is designed to facilitate the charging of scrap and molten pig iron into the BOF vessels, the refining of the steel during the oxygen "blow" and the "teeming" of the molten steel into

large molds. Only one of the furnaces will operate at a time.

It will be able to produce a ton of steel about every 50 minutes where the seven open hearth furnaces now operated by Granite City Steel Co. require an average of eight hours to complete the steelmaking cycle.

Covers 3.5 Acres

When completed, the basic oxygen furnace plant will cover three and a half acres and will be 180 feet high.

Gulley said that conversion to the new process will "provide tighter control over the chemical qualities of the carbon steel we produce... and represents another advance in our continuing program to improve the quality of our flat-rolled steel products."

The BOF process is in some respects a simpler process than older steelmaking methods. A high-pressure stream of almost pure oxygen is blown at super-sonic speeds into a large pear-shaped vessel containing a bath of molten iron and scrap. The oxygen combines with carbon and other unwanted elements and through a high temperature churning reaction, rapidly burns out impurities, converting it to steel.

Stop Sign Charge Filed

Della Bradley, 2616 Thirteenth street, was arrested on a stop sign violation charge at Pontoon pool and Franklin avenue Monday. She was summoned for a hearing by May 27.

Council Sets Sights for Early Budget Ok

The city's annual report for the 1965-66 fiscal year that ended April 30 is due next week, and preparation of the 1966-67 budget will then begin in earnest, it was reported to Granite City council members Monday night by Alderman Paul Rutledge, chairman of the Finance committee.

Robert Stevens, newly-appointed comptroller, attended his first meeting in that capacity and said the annual report now is nearing completion. Normally the budget is not given a final ok until the deadline is reached in July.

Rutledge said several departments already have budget outlines, and the new budget for the public library was presented to the council. The library last year had 28,015 registered subscribers, and circulation totaled 302,853. The library budget proposal was referred to the comptroller.

Other Budget Items Several other special items were approved for inclusion in the new budget. Alderman Robertson called for \$800 for a drainage line at Idaho and Troy avenues. It was pointed out the project could be done with money from the Idaho avenue project since the Idaho avenue project is next on MFT priority list and drainage is included. The council approved Robertson's request.

Also approved were requests by Alderman Green for two projects to be included in the budget. Cost estimates were not available. Green requested curbing on the south side of West 21st street between Illinois and

Missouri avenues and a sidewalk on the south side of 28th street between Adams and Center streets.

Action was deferred at the request of Alderman Mortimer and Dallas for payment of \$37,391 motor fuel tax funds to the city of Madison as Granite City's share of the McCambridge avenue improvement project. The aldermen complained the curb line on the Granite City side was being extended into the yards of property owners, while there is plenty of space on the Madison side.

Convention Courtesy

An opinion submitted by City Atty. Allen that the city is not required to call for bids on minor supplies was placed on file with copies to be given each alderman.

Permission was given the Elks Lodge to issue courtesy parking meter cards to over 300 bowlers expected in Granite City June 10-12 for a state bowling tournament for Elks lodges.

A letter of protest was received from Edwin Reiske, president of the Tri-City Trades & Labor Council, who said the trades council voted at its last meeting to voice displeasure at Mayor Partney's instruction for removal of the bus strike headquarters of

the Oil, Chemical & Atomic Workers Local 7463 from a lot along West 20th street. Reiske said the lot owner had not complained and neither had nearby residents.

Mayor Partney commented said the bus has not been used since the union strike against Union Sash & Refining Co. ended several months ago and that the vehicle was unsightly. City Building Inspector Orville Deltour was ordered to take steps to get repairs or demolition of an unoccupied house in the 2000 block of Illinois avenue that has been vacant for several years.

Forrest Swan Jr. Wins Full Army Scholarship

Forrest Swan Jr., son of Lt. Col. and Mrs. Forrest Swan, 2275 Westchester drive, is one of 400 high school students who have won four-year college scholarships to be given by the Army.

Swan, a senior at Granite City high school, plans to attend Washington University and is expected to join thousands of other college freshmen entering the Reserve Officer Training Corps this fall, a program which provides about 80% of the officers entering the Army each year.

The scholarships will pay for tuition, fees and textbooks and will provide a subsistence allowance of \$50 per month.

Swan was interviewed to determine his interest in an Army career and was chosen on the basis of his academic and extra-curricular record and his score on an aptitude test.

Secretary of the Army Stanley R. Resor said "The scholarships being offered by the Army will help provide the motivated, high quality, college educated officers needed by the Army."

Advice for Youngsters Seeking Summer Work

Youngsters seeking summer employment were advised to try to find jobs valuable to their future and not necessarily the one that pays the most.

Earl F. Halverson, regional director of the U. S. Labor Department's wage and hour and public contracts division, said, "It will pay off in the long run in terms of experience and future job preparation. And by all means be sure any prospective job is permitted in the Fair Labor Standards Act" as it affects young workers under 18 years old.

Halverson pointed out that jobs are permitted under federal law for anyone 16 years or over, but he reminded job seekers that state law also sets job standards. Under federal law, boys and girls 14 and 15 may be employed as clerks or stock workers in stores and may also do office or clerical work in most businesses.

There is an 18-year age minimum for those jobs which have been declared hazardous by the secretary of labor. They include motor vehicle driver or driver's helper, elevator operator, logger or miner and operator of certain power-driven machinery. Roofing operations and excavation work also have been found to be too dangerous for minors under 18.

He reminded youngsters that prospective employers will ask them to obtain a work permit or age certificate. He said the best source of information on job availability is the State Employment Service offices.

Summer Workshops in Communications are sponsored annually at Southern Illinois University for high school students interested in journalism, speech, theater, photography and interpretation.

New Action in Rail Tax Case Under Study

Refusal of the U. S. Supreme Court to hear the long-embattled Madison county railroad tax case O. Monroe, who had held in favor of the county and against the railroads, will mean a direct loss of approximately \$2 million dollars to railroads.

Madison county taxpayers unless further legal recourse to the high court is possible, Burton C. Bernard, special attorney in the case, told the Press-Record Tuesday.

Bernard was notified from Washington Monday afternoon that the U. S. Court had turned down an appeal pleading on grounds that it does not have jurisdiction in the case.

Madison county, in appeal notices filed several months ago by State's Atty. Joseph Bartylak and Bernard, sought to overturn an Illinois Supreme Court decision in favor of the railroads. The Illinois court action was taken earlier than the scope of the final ruling is so great it could mean the loss of a billion dollars in

taxes in Illinois within the next 20 years.

Join County in Plea

The plea of Madison county that the high court hear the case on appeal from the Illinois Supreme Court was supported by briefs filed by the Illinois Municipal League and the Illinois Association of School Boards who entered the case as friends of the court. The brief filed in behalf of the school boards said that the decision as it stood under the Illinois court ruling could disrupt educational systems throughout the state, particularly in downstate districts.

Attorneys for the 12 railroads involved argued in briefs opposing a U. S. Supreme Court hearing of the case that no constitutional questions were involved. They asked the high court to either reject an appeal hearing or to affirm the Illinois court decision.

The case, briefly, involved alle-

gations by the railroads that they paid taxes over a five-year period of 1957 to 1962 under assessments that were made at 100% of full cash value, while property of other taxpayers were assessed at from 50% to 60%. They contended this was discrimination and they were entitled to refund of taxes which they had paid under protest and which were placed in escrow pending a court decision.

Tried in 1964

Trial of the cases, originally involving 13 railroads, was held in 1964 and in August of that year Judge Monroe ruled in favor of the county, although his ruling fixed varying assessment rates for the different railroads and allowed some refunds to the railroads.

If the state supreme court decision is permitted to stand, Bernard said, the burden of taxes which should be of the carriers will be passed on to the taxpayer individual taxpayers who, by necessity, must make up the loss of tax revenue to the taxing districts. The \$2 million refund

Kiwanis Support Clean Up Drive

Granite City Kiwanis Club officially resolved continued support of the clean up campaign, currently under way in the Quad-Cities, accepted an invitation to participate in the Granite City Jaycees "homecoming" parade on June 18 and finalized plans for the fifth annual boat races on Aug. 31.

The business was transacted at the club's regular dinner meeting Monday at the Rose Bowl. Peter Jellen, president, conducted the business session, attended by 18 members and three guests. Robert Yount, Donald Wolfe, Marvin Barnes, Freeman Yount, representing the Bow Gross and William Herman.

Line Boat Club, co-sponsor of the boat race, and Wilbur Waggoner and William Seebold, outlined plans.

The event will be staged Saturday, Aug. 21, on the Mississippi River, near the Bow Line clubhouse. New appointments to the race committee, included Ted Niciecki and Eugene Frey. Frey is ticket chairman.

Members agreed to enter a float in the annual homecoming parade with William Seebold in charge.

306 Parking Meters Nearly Worn Out

After 16 years of continuous operation, nearly half of Granite City's 306 parking meters are nearing the point of no return.

Over the years, meter patrolmen have been maintaining the meters as well as patrolling them, but a survey completed last week showed 306 were in "bad condition" with extreme wear of major parts.

The other 332 meters are in "good or fair condition." The report was submitted to the city council Monday night and was referred to the Police committee for recommendation.

READY TO FLY the nation's highest industrial safety award—the award of honor of the National Safety Council—is the local A. O. Smith Corp. plant. Taking part in the initial banner-raising ceremony are, left to right—William Provance, safety inspector; George Hartzel, safety committee representative of Boilermakers Local 575; Paul Kelly, personnel manager; William Eastwood, safety committee representative of the Boilermakers; Robert Hess, manufacturing representative; Nicholas Brink, plant manager; and Clifton Blankenship, safety director at the plant.

A. O. Smith Corp. Wins Nation's Top Safety Award

A. O. Smith Corp. has been awarded the nation's highest industrial safety citation—the award of honor of the National Safety Council.

The distinction entitles A. O. Smith to fly coveted award of honor banners over company plants throughout the nation and abroad.

The A. O. Smith citation is based on an all-company 1965 accident frequency rate of 2.53 history of the large diversified lost-time injuries per one million man-hours, and an accident severity rate—number of days lost per one million man-hours—of 445. A. O. Smith's performance compares with an iron and steel products industry accident frequency rate of 8.10 and a severity rate of 684.

The National Safety Council has established "par" rates of 5.81 for frequency and 647 for severity. A. O. Smith's frequency performance is 80% better than the "par" rate while the severity rate is 31% better. Companies must be at least 43% and 30% better, respectively, to qualify for the award of honor.

A. O. Smith's 1965 frequency rate was the lowest in the 52-year history of the large diversified firm, and compared with a 1964 rate of 2.74, according to Vincent Collins, corporate director of safety. The company had 80 actual disabling injuries, compared with an all-industry average of 256, or a difference of 176.

Also featured are three special numbers by band students who received first superior ratings in Class A competition at the state solo and ensemble contest held recently in Mattoon.

Brenda Johnson will play a flute solo entitled "Scherzo" by Andersen, next will be Linda Cox with a clarinet solo, Troje Miller's "Divertissement," and last "The Butterfly," a flute solo by Kohler, will be presented by Sandra Joyce. The soloists will be accompanied at the piano by Mrs. Isabel Schmidt.

At the conclusion of the program, there will be a social hour in the cafeteria sponsored by the Prather PTA, with the president, Mrs. Geneva Paul in charge.

Approximately 400 employees have been handling the cataloging and item identification operations for Army aircraft for the past two years.

Insured Rural Housing Loans Now Available

Federally-insured loans are now available to rural families in Madison county to improve housing, according to Harold F. Kiepe, county supervisor of the Farmers' Home Administration. Kiepe maintains office hours at 114 Main street, Edwardsville, the first and third Tuesdays of each month from 10 a.m. until noon. His permanent offices are at 415 East Main street, Belleville.

The new lending program was made possible under the Housing and Urban Development Act of 1965 and is being administered by the Farmers Home Administration. Long-term loans repayable over periods up to 33 years may be used to construct, improve or repair rural homes or farm service buildings, or to provide water for farmstead or household use. Loan funds also may be used to buy a previously occupied house and lot, or a site on which to build a house.

Lt. Brink Training To Fire Missiles

Second Lt. Ronald K. Brink, 23, son of Mr. and Mrs. Nicholas R. Brink, 18 Miami court, is attending an officer's artillery course at the Army Air Defense School, Fort Bliss, Tex.

During the course, scheduled to end in June, Lt. Brink is being trained to fire the Nike-Hercules and Hawk missiles. He also is receiving instruction in the tactics of air defense and nuclear warfare.

The lieutenant was graduated from Washington high school, Fremont, Calif., in 1960. A member of Delta Tau Delta fraternity, he received his Reserve Officer Training Corps commission from the University of Illinois, Urbana, in 1964 and was graduated from the University of California, Berkeley, in 1966. Jaycees to Complete Plans For State Sports Jamboree

Planning for the Illinois Junior Sports Jamboree to be hosted this year by the Granite City Jaycees on Aug. 4, 5 and 6 will be coordinated with representatives of the Illinois Youth Commission and Jaycee state officials at a meeting Wednesday, May 25, at the Tri Mor Bowl.

A special guest will be former major league pitcher, Emil "Dutch" Leonard, who is now on the staff of the IYC, division of community service. As a recreation consultant since retiring from professional baseball at the end of the 1953 season, Leonard travels throughout the state conducting baseball schools during the season and is active in promoting the Junior Sports Jamboree.

Jaycees Boyd Presley and Herbert Siebert recently were appointed co-chairmen for the sports program, now in its 11th year. It annually attracts more than 600 top athletes from 12 sectional contests conducted around the state. Sectional events are drawn from winners of 41 individual events staged in nearly 200 local communities.

Accommodations, meals, chaplains and related services are to be organized and provided by the host Jaycee club. Special ceremonies, including torch-bearing runners similar to the Olympic ritual, have marked opening day activities in previous years.

Leonard will discuss procedure for recruiting most officials and other advance arrangements for the event, which is co-sponsored by the Jaycees and the Illinois Youth Commission. The former pitcher spent more than 20 years with major league baseball clubs, including the Brooklyn Dodgers, three years; Washington Senators, nine years; Philadelphia Phillies, two years; and the Chicago Cubs, three years.

He began his career in Central Illinois, playing in semi-pro competition at his hometown of Auburn. Leonard started professional ball in 1930 and went to the majors in 1933. He was selected on five All Star teams, four in the American League and one in the National, and was the winning pitcher in the 1943 All Star game.

Until 1961, Leonard was one of two ballplayers to be named to both American and National league All Star teams. Although

EMIL "DUTCH" LEONARD

never with a pennant-winning club, he had one of the best lifetime earned run averages of 3.25 and ran up a total of 123 victories against 187 defeats.

Sectional meets are planned for June and July in Peoria, St. Charles, Chicago, Monmouth, Springfield, Champaign, Charleston, Quincy, Carbondale, Wheeling, Calumet City and Alton.

Madison and Venice youngsters are to compete in the preliminary contest at 10 a.m. Saturday, at the Madison high school athletic field, while Granite City contestants will participate in a meet the following Saturday, at the GCHS athletic field. Five place winners from both contests will vie for sectional honors against other local meet winners at Alton on June 25.

It's true. Sometimes a home doesn't sell within a normal listing period. After 25 years of combined real estate experience and selling experience, we're in a hot field. That's why we're in the habit of working for nothing. In fact if your home is that much of a challenge and it hard to sell, we'll consider buying it. We know too well that nothing happens until a sale is made. The very next time you consider selling call a company that helps to work for nothing.

Over 50 Units Registered For Madison Jubilee Parade

Progress on the Madison diamond jubilee parade Saturday afternoon, July 2, has been "fantastic," it was reported this week by Harry R. Johnson, parade chairman.

The parade, one of the largest ever planned in the Quad-Cities, is expected to last three hours. Its tentative route goes through the Venice city hall, passes through the Granite City business area and ends in Madison. Motorized units will travel a longer route than those marching in the parade.

Johnson has been busy assembling a variety of floats, marching units and musical groups for the list of parade participants.

Drum and Bugle Corps
Five drum and bugle corps are registered: the Gabriettes, Belletes, Royal Lancers, Black Knights of Belleville and Ainal Temple.

Eight drill and marching units signed so far include baton twirlers, Checkerboard Squares, "Twirlers, Sons of the Legion," Venice-Madison American Legion Auxiliary, Legion Post 307, Girl Scouts and Boy Scouts. Musical groups taking part will include the Madison high school band and the Edwardsville municipal band.

At Least 15 Floats
Decorative and historical floats will be entered by St. Elizabeth Hospital, St. Mary's Church,

Busy Bee Bakery, Illinois Power Co., Madison Lions Club Scouts, Wagner Seven-Up Bottling Co., Navy Mothers, Opal's Beauty Salon, city of Madison, Hamilton Brothers Meat Co. and "Brothers of the Brush." Madisonians who have grown boards and mustaches for the 75th anniversary

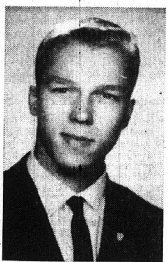

"American Legion Post 307 will enter a "duck" vehicle, and Schermer Brothers Market will be represented by a covered wagon.

Another float will be occupied by the diamond jubilee queen.

The animal world will be well represented. The parade committee has lined up a horse-drawn mail wagon, a horse-drawn covered wagon entered by Granite City Mayor Partney, the Granite City Trailriders club, Edwardsville Rough Riders saddle club, Alton Boots and Saddle club, a red and white pony, a llama-drawn wagon, a mail coach and a steam calliope.

The Tri-City Shrine club will enter 25 motor scooters, a motorcycle brigade and a fire truck complete with hillbilly band. There also will be 15 or more decorated sedans, convertibles and station wagons. Ainal Temple "crazy clowns" and Boy Scout Indian dancers.

Goal is the most comprehensive parade seen in this region in the past 75 years.
